

# Lonza

## Global OT Systems Quality Manager

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

You will work in a small team and a global environment to ensure that our world-wide projects are carried out with a high quality. The various amount of projects are a very good opportunity to grow personally and professional in an fast developing environment.

Key responsibilities:

- Establishing and maintaining the global MES systems quality and validation policies, risk-based standards, and procedures in line with internal and external regulations
- Coordinating the validation of MES computer systems software, related interfaces and infrastructure
- Quality oversight of global MES standard systems, interfaces and infrastructure, including but not limited to evaluation of changes and deviations, in cooperation with Centers of Excellence, supporting periodic reviews, and internal and external audits
- Consulting and advising Global MES computer systems projects on the correct application of internal and external regulations

Key requirements:

- Bachelor of Science in IT, OT, Informatics, Automation, engineering, process engineering, electronics engineering, Data Science or a related field
- Broad experience in Computerized System Validation (CSV) and infrastructure qualification in the pharmaceutical environment
- Experience working in Computerized System Compliance and Data Integrity
- Experience working together with stakeholders on different management levels
- Experience working in MES implementation projects would be a real advantage
- Fluent English language skills are required, German or French language skills would be an advantage

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
