

Internship in Study Organization for Environmental Monitoring

Job Description Summary

Internship in Study Organization for Environmental Monitoring

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Innovation projects within QC Microbiology and MCSS Environmental Monitoring require a solid foundation with scientific evidence, which are based on research and studies. Such studies are carefully planned, tracked and executed. These studies are essential to form decisions and processes, which are often questioned in audits. This position is bringing value not only for innovation projects, but also benefiting the daily business with respect to quality.

Key responsibilities:

- Obtain an overview about current procedures in technical areas, clean rooms, as well as the microbiological laboratory in a supervised manner
- Planning of interdisciplinary studies in the field of microbial monitoring by establishing a study plan
- Conducting the study and supervising its correct execution together with the teams
- Finalizing the study by writing of a study report and presenting the obtained results to involved stake holders within QC and MCSS

Key requirements:

- You are enrolled in a study or have studied (max. 12 months after completion) in the field of Life Sciences (FH/BSc/MSc/Diplom) with basic understanding of microbiology
- You are familiar with scientific writing and reporting
- You are fluent in German & English
- You are communicative, independently working, responsible, team oriented and enjoy working inter-disciplinarily
- You are self-motivated, actively engaging in the work, addressing issues & successes and like to work with a young & dynamic team

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
