

Wir suchen ab sofort einen **Lead-Software-Engineer** zur Verstärkung unseres nationalen und internationalen Teams (80–100%, in Visp, VS oder remote). Arbeitsmodell und Organisation sind so flexibel wie unsere moderne Cloud-Plattform selbst. Bist du ein begeisterungsfähiger Vollblutentwickler mit einem gut gefüllten Rucksack an Erfahrung und Wissen? Traust du dir zu, ein Team aus Top-Entwicklern zu leiten und dich täglich den verschiedensten Herausforderungen zu stellen – von unserem eigenen Virtual-Reality-Client bis zum Datenschutzkonzept, von bahnbrechenden Machine-Learning-Projekten mit der ETH bis hin zu automatisierten End-To-End-Tests? Dann bist du bei uns genau richtig.

Werde Teil unserer Vision und hilf mit, zusammen mit den innovativsten Köpfen in den verschiedensten Bereichen die digitale Welt neu zu definieren – the way it should be.

Bewerbungen bitte direkt an [andy.abgottspon@hazu.io](mailto:andy.abgottspon@hazu.io). Teilen in deinem Netzwerk sehr erwünscht!

## Responsibilities

- Management and coordination of a team of about 5 engineers
- Responsible for Architecture and Design Features
- Close cooperation with product management
- Liaison to external development partners
- Quality assurance and testing
- Data Security and Privacy
- Training of young engineers and partners

## Qualification

- ETH, university or university of applied sciences degree in computer science
- Over 5 years of experience in developing JavaScript-based web applications, combined with a deep understanding of the underlying technologies (Angular, TypeScript, React, Rxjs)
- Experience in leading a development team (Agile/SCRUM)
- Excellent written and spoken German and English
- Knowledge in the areas of UI / UX / Design
- Additional experience is an advantage: AI / ML, Games / 3D, GDPR, AWS / Google Cloud / Firebase

## Benefits

- Open working atmosphere in a dynamic start-up team
- Flat hierarchies
- Varied activity with freedom and design possibilities
- Direct exchange with the founder on vision and mission

## About Hazu

Hazu is the idea, content and interaction platform for innovation and education. Create, organize, communicate – everything clearly arranged, agile and easy to use on one platform! With Hazu you work in your world, according to your logic. Founded in 2016 in Silicon Valley, but now also based in Switzerland (Visp, "Silicon Valais"), we have set ourselves the goal to redefine the digital world. Instead of using a multitude of fragmented tools and platforms which are mostly based on analog ways of thinking like files and folders, Hazu introduces a new paradigm that

is easy and fun to use. According to Bilan magazine (2018), Hazu was among the **7 most innovative web technology startups in Switzerland to invest in.**
