

Senior Academic Associate for the Institute of Sustainable Energy and the Institute of Entrepreneurship & Management

Numéro de référence 1128

The University of Applied Sciences and Arts Western Switzerland Valais (HES-SO Valais-Wallis) has over 2,800 students. Through research and innovation, it contributes to economic and social development and the creation of jobs. Located in the heart of the canton of Valais, the School of Management is a pioneering establishment that moves with the times, offering tertiary-level courses that are highly vocational and student-focused. Thanks to its degree programmes, its research institutes and its close relationships with local economic actors, it represents a genuinely innovative ecosystem for training and research. We're helping build the future of the canton of Valais. Why not come and join us?

VOTRE MISSION

- As an interdisciplinary project leader, you are responsible for planning and managing R&D projects
- You help the institutes with the coordination of research activities
- You participate in the acquisition of research funding
- You support the head of the Energy Living Lab with the management of the team and of projects
- You coordinate a national network in the field of energy
- You act as a link between the worlds of engineering and economics

VOTRE PROFIL

- Master in Energy, Environment, or equivalent; a PhD would be an asset
- At least 5 years' experience managing complex projects in the energy and environment field
- Excellent knowledge of energy efficiency and of product and service co-design
- Experience in managing international and innovative projects
- Proven experience in team management (ideally with a certification)
- Organised, self-reliant, strong interpersonal skills
- Excellent knowledge of French or German with good knowledge of the second language
- Perfect knowledge of English
