

Lonza

Bioprocess Engineer (m/f/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our Biologics organization, we are currently looking for a Bioprocess Engineer in [Ibex® Solutions](#), our recently launched unique biological manufacturing and development concept. Become part of this exciting opportunity and apply now!

Key responsibilities:

- Responsible for the planning, execution and documentation of manufacturing campaigns in the area of mammalian cell culture and purification
- Lead multi-disciplinary project teams as Functional Lead for all manufacturing aspects of assigned products
- Responsible to prepare and execute SHE (Safety, Health, environment), EM (Environmental Monitoring), operation and cleaning risk analysis for the assigned products and the implementation and control of defined measures
- Responsible to establish timely and with high quality the required production documentation specific to the assigned production area
- Perform manufacturing activities according to cGMP guidelines, ensuring batch execution, evaluating test results, resolving issues, troubleshoot manufacturing equipment and make recommendations for resolution

Key requirements:

- Master's Degree in Biotechnology, Bio-chemical Engineering, Biochemistry or related Life Science subject
- Very good knowledge in Upstream Processing
- Working experience in biomanufacturing would be an advantage
- GMP experience and understanding of bioprocess technology
- Excellent communication skills in English, German would be beneficial

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
