You will also actively drives the technical Procurement. This function reports directly to the Site Head LSI Visp.

Key responsibilities:

- Manage and coordinate the local department "Logistic and Site Projects LSI Visp" and ensure organizational and personal development based on the values "Performance, Collaboration, Passion and Care"
- Design and implementation of Logistics and Site Project strategies and concepts for LSI Visp
- Generating proactive new and innovative solutions together with the business/customers to improve the processes regarding efficiency, automatization and costs
- Ensuring the achievement of the defined department and team targets
- Budget responsibility for the respective Logistics / Procurement areas
- Project Leader LSI for future Logistics Infrastructure
- Comply with all Regulatory, EHS, GMP, GDP and security compliance procedures
- Strong coordination with the global Procurement LSI – indirect materials
- Warehouse Management internal / external including technical and chemical material and ensure communication with Supply Chain and Outbound Logistics
- Increase efficiency in chemical and technical SMOG management

Key requirements:

- Master degree in Logistics/Supply Chain Management or Chemical Engineering is highly recommended.
- Significant knowledge of the chemical or similar industries and substantial experience in production
- Prior direct supervisory/manager experience, leading large organization structures, deep knowledge of global management system approaches and structures
- Develops inclusive relationships and alliance engaging internal and external stakeholders
- Leads and drives the identification of customer and market needs using data, research and customer relationships
- Leads multiple complex initiatives simultaneously to successful conclusion
- Implements and demonstrates the highest standards of safety
- Proficiency in German (written and spoken) is a must and very good communication skills in English

Lonza

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
