

Internship Global Master Data Analyst

At Lonza, we invest in great people. We encourage our employees to challenge themselves and we offer an environment that fosters creativity and success. Headquartered in Basel, Switzerland, we operate production, R&D, and business sites around the world, including Europe, North America, and Asia.

Our vision:

We strive to be the leading supplier using science and technology to improve the quality of life.

Our mission:

We work with passion, using advanced technologies, to transform life science into new possibilities for our customers.

Do you want to help us as we shape the future of this great organization?

Job Description Summary

You will assume responsibilities both in improving, developing the Master Data management process and maintaining the Master Data quality.

This will include:

- definition of specifications for process improvements and testing new functions,
- data analysis,
- mass changes and data migrations,
- reports and queries for the team or the business.

Improving and enhancing training documentation as well as providing refresher trainings belong also to the accountabilities.

As a member of the Global Master Data team, you will be able to learn more about key business processes, SAP Materials Management and Sales & Distribution modules as well as data structures. Overall you will interact with many different departments and experts across the company worldwide.

Our expectations:

- You have a Bachelor or Master degree in computer or data science, mathematics, or informatics.
- You have an understanding of data structures or experience with databases.
- You are fluent in English. German and any additional language will be an appreciated asset.
- You are interested in continuous improvements of processes, IT tools and innovative solutions.
- You are interested in being a reliable team member in a multi-cultural environment.
