

# Lonza

## Internship IBEX MSAT DSP

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Our recently launched unique biological manufacturing and development concept in Visp, Switzerland, offers a complete product lifecycle of a biopharmaceutical – from preclinical to commercial stages, from drug substance to drug product, all in one location. The three offerings Ibex™ Design, Ibex™ Develop, and Ibex™ Dedicate have been developed as a response to a dynamic market and evolving needs. The environment is constantly changing and the spirit is truly comparable to a start-up organization with high energy, and where we all learn from each other, and have fun at the same time.

We have currently multiple openings for students who would like to do an internship or write a thesis linked to the pharmaceutical industry. Become part of this exciting opportunity and join our team by applying for (this) internship

Duration: 6-12 months.

#### **Key Responsibilities:**

- Supporting technology transfers of biopharmaceutical processes
- Technical and scientific support to achieve robust and efficient production processes
- Focus is on downstream processing (cell culture process)
- Collaboration with manufacturing
- Supporting process validation
- Supporting deviations management and changes
- Preparation of the required GMP compliant documentation

#### **Qualifications & Skills required:**

- University student (engineering, chemistry, chemical engineering, biotechnology or related field).
- Very good communication skills
- Good IT skills (Microsoft Office and Microsoft Visio)
- Fluent English language skills
- Basic German language skills

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
