

Junior Solution Architect

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

As part of a team of system specialists, you will look after Lonza's central IT infrastructure. As an all-rounder, you have good knowledge of Windows and experience in the virtualisation of servers. Your tasks include the planning, installation and operation of various application infrastructures, including SAP. You enjoy working with internal customers from different locations and can communicate in written and spoken English. Independent and proactive work is required, ideally you have experience in the technical implementation of infrastructure projects.

Key responsibilities:

- Review, interpret and respond to detailed business requirements specifications to ensure alignment between customer expectations and current or future ICT capability
- Operation of the above environment and ensure high availability
- Accountability for delivery of Project work according to the overall standards and concepts
- Technology scouting and run proof of concepts / Propose new solutions, liaise with vendors and define global IT infrastructure standards in storage, backup and laboratory software
- Resolution of critical incidents and problems
- Ensure Disaster/Recovery and maintain security of systems and unauthorized access to systems
- Ensure that systems are implemented and documented in compliance with Lonza's standards
- Ensure documentation and compliance of corresponding IT-Infrastructure

Key requirements:

- Degree in computer science FH / business informatics FH.
- You speak fluent German and can communicate well in English
- You are independent, outgoing, customer-oriented and appreciate working as a team player.
- You are well organised and can keep a cool head in stressful situations

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
