

Lonza

Lab Technician Development Services Ibex (m/w/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in Visp is growing and for [Ibex® Solutions](#), our recently launched unique biological manufacturing and development concept in [Visp, Switzerland](#), we are currently looking for a **Lab Technician Development Services Ibex (m/w/d)**. Become part of this exciting opportunity and apply now!

Key responsibilities:

- Timely, independent and accurate performance of experiments in the field of mammalian cell culture technology (upstream, downstream & analytic)
- Working with complex technical systems (e.g. bioreactors, chromatography systems or analytical instruments)
- Support of process transfer and scale-up in cooperation with other departments
- Implementation, maintenance and qualification of instruments and equipment
- Documentation of raw data, evaluation and interpretation of results
- Independent recognition, communication and input of information to solve problems (e.g. deviations or unexpected results of experiments)
- Ensuring and maintaining the functionality of work equipment and hygiene in the workplace

Key requirements:

- Laboratory technician apprenticeship in the field of biotechnology, biochemistry, chemistry or bachelor in applied natural science
- Practical experience with animal cell culture, cell banking, bioreactors, chromatography systems or similar laboratory activities
- Very precise and accurate operational skills
- Distinct ability for self-organisation
- Business fluent German and/or English

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
