

# Lonza

## Laboratory Specialist for iciEF & CE (m/f/d), 80-100%

### Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a motivated Laboratory Specialist with experience in using iciEF and CE to join our friendly Quality Control team.

Key responsibilities:

- You will be our iciEF and CE expert and perform routine quality control testings as well as method validations and method transfers
- You take care of the iciEF and CE device and troubleshoot in case of problems and organize repairs with external companies if necessary
- Working and documentation acc. to GMP regulations
- Help your team colleagues with other analysis as necessary (e.g. HPLC analysis)

Key requirements:

- Associate Degree or BSc or MSc in Chemistry, Biochemistry or similar field
- You enjoy practical laboratory work and you already have experience in using iciEF and/or CE (knowledge of HPLC is a plus)
- Experience in a GMP environment is a plus
- Experience with Laboratory Systems and Document Management Systems (e.g. Empower, LIMS) is a plus
- You show initiative and proactivity and you are a teamplayer
- Good Communication skills in German as well as English are necessary

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
