

Manufacturing Execution System (MES) - Process Expert (m/f/d)

Job Description Summary

Today Lonza is a global leader in life sciences. We are more than 15,000 employees in more than 100 locations around the world. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in Visp is growing and for [Ibex™ Solutions](#), our recently launched unique biological manufacturing and development concept in [Visp, Switzerland](#), we are currently looking for a Manufacturing Execution System (MES) - Process Expert. Become part of this exciting opportunity and apply now!

Key responsibilities:

- Responsible for the planning, the execution and documentation of manufacturing batches for Drug Product in compliance to cGMPs, SOPs and applicable guidelines
- Lead process related investigations and critical deviations and assists in decision making on production issues
- Create and maintain recipes in MES, responsible for the creation, modification, review and approval of electronic batch records (eBR)
- Act as Subject Matter Expert during customer audits and visits, maintain their processes at inspection readiness level and to provide the necessary support

Key requirements:

- Bachelor / Master Degree, preferred area of study: Pharmaceutical Technology, Chemistry, Pharmacy or equivalent scientific degree
- Fluent in English is a must, German is an advantage
- Familiarity with GMP requirements, quality procedures and SOP execution
- Strong leadership skills and team orientation
- Good communication skills and interaction with a variety of interfaces within the organization and on the shopfloor
- Proven IT knowledge, knowledge in SAP and MES is a requirement

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
