

MSAT Process Expert Mammalian Large-Scale (m/f/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our Biologics organization, we are currently looking for experienced Process Experts and Senior Process Experts in [Ibex® Solutions](#), our recently launched unique biological manufacturing and development concept. We have opportunities in both USP and DSP in Drug Substance for mammalian large-scale manufacturing (up to 20.000L). As a process owner, you are responsible for the successful scale up, supervision and optimization of mammalian processes. Become part of this exciting opportunity and apply now!

Key responsibilities:

- You are responsible to lead cross-functional teams tasked with technology transfers (process design and up-scaling) and timely process implementation at manufacturing scale
- You act as the interface between the process donor (customer, process development) and manufacturing
- You directly communicate with customers during campaign preparation, execution and closure including regular reporting of batch status and process performance
- You are responsible for the resolution of process issues that may arise during manufacturing considering all regulatory requirements
- You secure technology transfer success by applying standardized processes and tools to manage the transfer of information, process related risks and change control

Key requirements:

- Bachelor, Master's degree or PhD in Biotechnology, chemical engineering or related discipline
- Significant experience in the area of biopharma manufacturing and / or process development preferably in Mammalian Manufacturing (large-scale)
- GMP experience and understanding of bioprocess technology
- Excellent communication skills in English and/or German

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
