

Lonza

Project Control Manager

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and we are currently looking for a Project Control Manager. The Project Control Manager will report to the Platform Head Small Molecules / Drug Substance. You will be responsible for providing leadership for effective Project Control at Program Level and be accountable for ensuring Lonza's guideline for project control are duly implemented across all Small Molecules projects. You ensure timely and complete project reporting and develop trend analysis and forecasts.

Key responsibilities:

- Accountable for ensuring that accurate cost estimates, schedules, and project reporting are implemented for the SM/DS program in a timely fashion
- Supervise and mentor all Project Control teams to ensure the desired level of control is in place
- Ensure that estimate process for new capital investment is properly done and proper class estimate is defined according to construction standards
- Responsible for regular risk assessments on cost and schedule
- Ensure that large capital project are duly monitored and reported timely

Key requirements:

- Degree in architecture, engineering or related field or significant years of related work experience is required
- Extensive experience in capital project engineering or project management.
- Demonstrated experience and success with planning and executing large capital projects
- Effective contacts with professional organizations to facilitate benchmarking
- Strong communication skills to present to and educate various levels of divisional leadership and personnel
- Excellent teamwork and collaboration skills to influence consistent project management practices across Lonza
- At least conversational German level

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
