

Lonza

Project Lead Supply Chain SAP IBP/RCCP (m/f/d)

Job Description Summary

Randstad Inhouse Services is looking for a Project Lead Supply Chain SAP IBP/RCCP (m/f/d) for Lonza AG (100%). This is a temporary position for 24 months.

Today, Lonza is a global leader in life sciences operating across three continents. While Lonza works in science, there's no magic formula to how they do it. Their greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, they let their people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work Lonza wants to be part of.

Key responsibilities

- Lead and deploy the integrated planning (demand and supply) in the integrated SAP R/3 - IBP/RCCP environment for batch production (project step 1)
- Lead and deploy the integrated planning (demand and supply) in the integrated SAP R/3 - IBP/RCCP environment services/process development (project step 2)
- Lead multi-disciplinary project teams for the transformation of the Supply Chain function of the Lonza Visp site applying SAP Blueprint. For all sub projects this includes the responsibility and accountability for project initiation, planning, execution/implementation, monitoring and close out. Drive the establishment, optimization, governance and oversight.
- Lead and establish necessary change management measures to ensure a smooth transition and adherence to the SAP Execution Blueprint standards
- Provide leadership in defining best practices and applying project management standards; ensure that the project is on track and any issues can be proactively managed.
- Conduct Project Team Meetings to ensure that all stakeholders are working in accordance to the agreed Project Plan
- Connect to key stakeholders/functions to ensure that the plan meets requirements

Key requirements

- Bachelors or Master's degree with scientific background (chemistry, pharmacy, biology), or equivalent experience
- Extensive experience within the Supply Chain, ideally in Biotech industry and in Process Development area
- Deep SAP knowledge in IBP and RCCP, MM and PP modules, as well in master data management (WBS/Recipe/Resources/BOM)
- Proven expertise in process and system deployment and implementation as well as in continuous improvements
- Comprehensive and proven Change Management capabilities
- Ability to oversee and manage complex process and system landscapes considering pharmaceutical requirements
- Demonstrated leadership skills and experience with managing direct and indirect team structures
- Demonstrated crisis management skills, delivering under uncertain and high business pressure conditions

Lonza

Every day, Lonza's products and services have a positive impact on millions of people. For Lonza, this is not only a great privilege, but also a great responsibility. How they achieve their business results is just as important as the achievements themselves. At Lonza, they respect and protect their people and their environment. Any success Lonza achieves is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, Lonza offers the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
