

Project Manager Microbial Manufacturing (f/m/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a talented, motivated expert to participate the QA Microbial team in Visp. In this role you will be responsible to manage all quality related aspects during project execution. The tasks is focused on ensuring QA oversight of all project related activities until the final release of produced batches. Inspired by the QA team and your interfaces you will influence and support continuous improvement and simplification.

Embedded in the breathtaking nature we will offer a great place to work in a growing manufacturing site in [Visp](#) (VS).

Key responsibilities:

- Responsible for batch release and accountable for the quality of all related records (Deviation, changes, investigation, CAPA).
- QA oversight for the dedicated manufacturing asset
- Coordination and Initiation of continuous Improvement project/ activities.
- Responsible for the creation and approval of quality agreements with our customers
- Single point of contact for the coordination of quality-related topics with the customer

Key requirements:

- Degree (BSc, MSc, equivalent) in natural science
- Experience as QA Operations in pharmaceutical industry
- GMP related experience
- Strong individual contributor and decision maker

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
