

Senior Chemical Engineer

Job Description Summary

Today Lonza is a global leader in life sciences. We are more than 15,000 employees in more than 100 locations around the world. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a Senior Chemical Engineer for [Lonza Specialty Ingredients](#) (LSI) in [Visp, Switzerland](#).

As a Chemical Engineer in our Chemical Process Development Team you are responsible for the engineering tasks of the development of new production processes as well as scale-up and implementation.

Key responsibilities:

- Planning, supervision and interpretation of experimental work independently during process development regarding all chemical engineering aspects
- Preparation of plantfits for new chemical process to be implemented in our multi-purpose trains
- Identification of suited process technologies for chemical reactions, product isolations as well as solvent distillations
- Strong production support during process implementation on commercial scale

We offer:

- Young, dynamic and innovative team and working environment
- Collaborative, solution oriented working culture
- Broad skill training opportunities
- Competitive salary and social benefits
- Flexible and family-friendly working time models
- Work in a scenic location in the heart of the alps

Key requirements:

- Ph.D. or MSc. in chemical engineering
- Good understanding of procedures and concepts within the field of chemical engineering, quality and safety
- Very strong analytical skills with ability to understand complex data structures and inter-dependencies through conceptual & strategic end-to-end thinking
- Ability to communicate effectively, collaborate, and foster positive interactions with project team members and stakeholders
- Strong Team player
- Fluency in German and English

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
