

Lonza

Senior Lab Technician- Cell Culture Development

Job Description Summary

Randstad Inhouse Services is looking for a Senior Lab Technician- Cell Culture Development (m/f/d) for Lonza AG (100%). This is a temporary position for 12 months.

Today, Lonza is a global leader in life sciences operating across three continents. While Lonza works in science, there's no magic formula to how they do it. Their greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, they let their people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work Lonza wants to be part of.

Key responsibilities

- Support the Project Lead in daily cell culture activities.
- Execute experiments according to plan.
- Contribute to general laboratory tasks and media preparation.
- Contribute to problem solving and lessons learned activities.

Key requirements

- Apprenticeship, BSc or MSc in biotechnology or biology.
- Technical/Business English.
- Experience in cell line construction (transfections, FACS, Beacon, cryopreservation, ...).
- Experience with AMBR15/AMBR250 systems.
- Experience with stirred-tank bioreactors for mammalian cell culture is a plus.

Every day, Lonza's products and services have a positive impact on millions of people. For Lonza, this is not only a great privilege, but also a great responsibility. How they achieve their business results is just as important as the achievements themselves. At Lonza, they respect and protect their people and their environment. Any success Lonza achieves is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, Lonza offers the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
