

Senior Process Validation Manager (m/f/d)

Job Description Summary

Today Lonza is a global leader in life sciences. We are more than 15,000 employees in more than 100 locations around the world. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We are looking for a Senior Process Validation Manager to extend our team in [Visp](#).

Key responsibilities:

- Preparation of validation documents (study design/ writing protocols and reports) according to Lonza procedure and in compliance with regulatory guidance
- Responsible for taking decisions concerning validation
- Leading the process validation teams including communication with customers
- Responsible for the validation assessment on changes and deviations
- PQRs: Review, validation assessment and final approval

Key requirements:

- Master Degree in Chemistry (preferred PhD)
- English must and German fluent
- Able to work according to good science and GMP compliance
- Able to work independently in multidisciplinary teams
- Excellent communication skills

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
