

Lonza

Senior Scientist - Pilot Lab DSP

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

For [Ibex™](#) Solutions, our recently launched unique biological manufacturing and development concept in Visp, Switzerland. Become part of this exciting opportunity and join our team by applying for the position of Senior Scientist Pilot Lab – DSP (m/f/d).

Key responsibilities:

- Responsible for the planning, execution, and documentation of project-specific process activities in close collaboration with the assigned project lead in the area of Mammalian cell culture.
- Collect, summarize, analyze data to prepare reports and presentations.
- Support actively lab work by hands-on during the purification process at the Pilot scale.
- Responsible to establish timely and qualitatively the required working instructions for technicians.
- Represent the team in group and project team meetings and being involved in customer meetings.

Key requirements:

- MSc./PhD. in Biotechnology, Biochemistry, Chemical Engineering or related disciplines
- Some years of industry experience in the field of purification of monoclonal antibodies preferred
- Broad biotechnology expertise and/or knowledge in the area of protein purification; GMP understanding is an addition
- Fluent in English, German skills are an addition
- Very good communication skills and structured, focused, and well-organized working attitude

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
