

Lonza

Scientist 80-100 % (m/f/d) QC mRNA

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

We have recently been confirmed as the global manufacturing partner for Moderna's vaccine against the novel coronavirus, providing a tenfold manufacturing capacity increase. As other businesses face increasing economic uncertainty, we are fortunate to have opportunities for expansion. Through this new collaboration, our work will have a significant, direct and long-term impact on the management of this global pandemic. Become part of this exciting opportunity and join our team by applying for the position as **Scientist 80-100 % (m/f/d) QC mRNA** in [Visp, Switzerland](#).

Key responsibilities:

- Routine analytical testing of drug products using HPLC
- Creation, revision and review of cGMP documentation (SOP's, Quality Instructions, protocols, reports...) based on a standard format related to quality control activities.
- Interpretation and presentation of scientific data
- Participate in investigations and troubleshooting in the lab, identification and implementation of continuous improvement suggestions
- Participation in QC related projects

Key requirements:

- Bachelor's or Master's Degree in chemistry, biochemistry or related field
- Work experience in a laboratory, including very good knowledge of HPLC
- Experience in a GMP environment preferred
- Good Communication skills in English. German skills are beneficial.
- IT (incl. software used in QC like LIMS, Empower, DMS etc.)
- Good organizational and project management skills

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
