

Senior Scientist PAT

At Lonza, we invest in great people. We encourage our employees to challenge themselves and we offer an environment that fosters creativity and success. Headquartered in Basel, Switzerland, we operate production, R&D, and business sites around the world, including Europe, North America, and Asia.

Our vision:

We strive to be the leading supplier using science and technology to improve the quality of life.

Our mission:

We work with passion, using advanced technologies, to transform life science into new possibilities for our customers.

Do you want to help us as we shape the future of this great organization?

Job Description Summary

As senior scientist and member of our PAT-Team you are conducting the evaluation, selection and implementation of process analytical technologies for Pharma and Specialty Ingredients Production Processes by applying advanced Process Analytical Technology Methods. Your work influences the safety, quality and cost structure of our products.

Job Description

- Conducting feasibility studies in lab and plant
- Collecting and analyzing data by applying existing and novel analytical methods
- Close collaboration in interdisciplinary project teams
- Support innovation by actively contributing to investigation of technology trends and improvement of existing methods and procedures.
