

Lonza

Single Use Operations Champion (f/m/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in Visp is growing and for [Ibex™ Solutions](#), our recently launched unique biological manufacturing and development concept in [Visp, Switzerland](#), we are currently looking for a Single-use Champion who is responsible for all aspects of the internal use of Single-use Elements (SU-E) in the Ibex™ DDDS (Design and Develop Drug Substance). The single-use champion reports directly to the Head of Manufacturing Operations and acts as operational interface between the stake and shareholders (MSAT, QA, logistics, purchasing) in relation to SU-E. He is responsible for training, conceptual development for production process, quality assurance in the operations and with regard to SU-E and consumables in a demanding GMP environment. With his high level of professional and social competences, he/she develops and maintains a concept with top performance in terms of safety, quality and productivity. Economic thinking paired with healthy entrepreneurship determines his personal work within the company.

Become part of this exciting opportunity and apply now!

Key responsibilities:

- Unique point of contact with regard to operational requirements and/or chemical/physical resistance of Single-use elements
- Responsibility for adhering to the predefined Lonza standardization in the field of SU technology
- Review and release of the SU User Requirements (URS) and management of the interface between MSAT and operations in relation to SU-E
- Overview of all complaints from Ibex DDDS and support the investigation as well as the writing of the Q complaint and review of the feedbacks from the manufacturers in case of a supplier complaint
- Management of Q-Alerts and improvements in the area of SU-E.
- Responsibility for adhering to the predefined Lonza standardization in the field of SU technology
- Review and release of the SU User Requirements (URS) and management of the interface between MSAT and operations in relation to SU-E
- Overview of all complaints from Ibex DDDS and support the investigation as well as the writing of the Q complaint and review of the feedbacks from the manufacturers in case of a supplier complaint
- Management of Q-Alerts and improvements in the area of SU-E.
- Responsibility for further development of the employees in DDDS in the area of SU-E.
- Coordination of the in-house training and keeps the training program up to date as well as recording of the successfully completed training courses.
- Responsibility for change management with regard to single-use elements

Key requirements:

- Master or Bachelor degree in Biotechnology or other relevant areas
- Working experience in pharma manufacturing and Single-use will be an advantage
- Good understanding of the DS production process, from USP to DSP
- Very good knowledge of process engineering, single-use technology and cGMP environment
- Good IT skills (Microsoft Office, specifically Excel and Visio)
- Fluent German and English

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
