

Lonza

Single Use Technology (SUT) Expert - MSAT Mammalian (m/f/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our Biologics organization, we are currently looking for a Single Use Technology (SUT) Expert to join the MSAT Mammalian Team in [Ibex® Solutions](#), our recently launched unique biological manufacturing and development concept. In this role, you will act as Subject matter expert for single use technologies. Become part of this exciting opportunity and apply now!

Key responsibilities:

- Main point of contact for all technical, quality and regulatory based challenges
- Support the Lonza project teams for the selection and the implementation of single use equipment in our GMP facilities (Mammalian Ibex®)
- Coordinate single use related activities with the MSAT, manufacturing, logistics, supply chain and quality assurance teams
- Responsible for the standardization of the single use equipment
- Representative for the communication with key single use suppliers
- Be part of the Lonza global single use network
- Responsible for vendor change notifications and single use related change control management

Key requirements:

- Master or PhD in Biotechnology, chemical engineering, or related disciplines
- Significant experience in the single use area or in cGMP biopharmaceutical manufacturing
- Excellent communication skills for interaction with project teams and suppliers
- Fluency in English, German preferred
- Creative, agile, open-minded

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
