

Lonza

Team Lead LC/MS Lab, Analytical Development, Ibex®

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

Experienced professional and lead scientist in the field of analytical development. Subject matter expert in proteomics by LC-MS. Strong evidence for delivering on commitments and working collaboratively in cross-disciplinary teams. Solid appreciation of commercial requirements. Established credibility within the Lonza network and broader scientific network.

Key responsibilities:

- Represent the team cross-discipline and provide strong scientific, technical and regulatory leadership at project level. Lead individual scientists and lab technicians on complex projects.
- Extensive industry experience in Mass Spectrometry in the field of intact mass analysis, Peptide Map.
- Method development, validation and trouble-shooting experience on LC/MS methods (Waters, Agilent, Thermo-Fisher instrument)
- Ability to design experiments, interpret and track results
- Experience in use of common laboratory software such as Empower, Biopharma Finder, Proteome Discover, electronic lab notebook, LIMS
- Projects: lead multi-disciplinary matrix teams on complex projects in the area of scientific expertise. Lead problem solving and lessons learned activities.
- Scientific tasks: design adequate experimental plans and data analysis methods, write and review high quality reports.
- Customer interactions: develop strong customer relationships.
- Training: lead training activities in the area of expertise.

Key requirements:

- Industrial experience in development of Mass Spectrometry methods
- Experience in managing teams
- Experience in Design Experiment and result interpretation
- Experience in LC/MS software (e.g. Proteome Discover, Biopharma Finder etc.)

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. In return, we offer the satisfaction that comes with improving lives all around the world. The satisfaction that comes with making a meaningful difference.
