

Lonza

Team Lead MSAT DSP (f/m/d)

Job Description Summary

Today, Lonza is a global leader in life sciences operating across three continents. While we work in science, there's no magic formula to how we do it. Our greatest scientific solution is talented people working together, devising ideas that help businesses to help people. In exchange, we let our people own their careers. Their ideas, big and small, genuinely improve the world. And that's the kind of work we want to be part of.

The site in [Visp, Switzerland](#) is growing and for our Biologics organization, we are currently looking for a Team Lead MSAT DSP. In this role, you will manage the operational activities DSP BioAtrium and act as functional lead for an interdisciplinary team of process engineers, specialists, and manufacturing specialists. Become part of this exciting opportunity and apply now!

Key responsibilities:

- Responsible for resource and vacation planning of the assigned team members with regard to the fulfilment of all production orders
- Ensure a good information exchange from the upper management levels to his/her team and the other way around through regularly team meetings and escalation of production issues
- Implement a culture via openness for change and new ideas, cooperative teamwork and continuous improvement even outside his/her own area of responsibility
- Accountable for the preparation and execution support of all production campaigns in the DSP manufacturing business unit with regard to safety, quality and delivery
- Driver of solving production issues in the DSP manufacturing unit according to the common escalation guidelines
- Supervise and validate risk analysis and manufacturing work place
- Responsible for setting up the training activities and implement new technology in the DSP operations unit

Key requirements:

- Ph.D. or Master degree in Life Sciences (e.g. Biology, Biochemistry, Biotechnology, Chemistry or related are)
- Significant experience in Process Expert positions in biomanufacturing
- Very good leadership and communication skills
- Fluency in English, German would be an advantage
- High attention to detail and very good problem-solving skills
- Ability to work across a complex matrix environment

Every day, Lonza's products and services have a positive impact on millions of people. For us, this is not only a great privilege, but also a great responsibility. How we achieve our business results is just as important as the achievements themselves. At Lonza, we respect and protect our people and our environment. Any success we achieve is no success at all if not achieved ethically.
